4. Personally looked over the fence and parking facilities in the rear of I, J, K, and L Buildings and satisfied myself that whether or not we save \$30,000 per year by eliminating two guard posts in that area is not dependent upon the movement of the fence. Discussed this with Mr. Wolf and will prepare a Memorandum for the Record pointing out the previous error in our staff study on this subject and recording the fact that inasmuch as this error has been discovered we do not propose to go ahead with the project.
